

# Machinery Set In Motion For Soldier Bonus

Considerable Preliminary Preparation Made During Five-Year Fight

VETS BUREAU IN CHARGE  
Director Hines Declares Organization Ready to Begin on Work

By Associated Press  
Washington, D. C. — Government machinery was in motion Tuesday to administer the soldier bonus law, finally enacted Monday when the senate followed the house and repassed the bill over President Coolidge's veto.

While the five-year fight for the bonus has been increasing in intensity during the last two years, considerable preliminary preparations had been made by the departments affected to carry out the provisions of such a bill.

Director Hines of the Veterans bureau, which will have direct control over the administration of the law, declared Tuesday the bureau was ready to handle its share of the work.

POLICIES DUE IN JANUARY

The law, which applies to more than four million World war veterans and their dependents, provides for cash payments to veterans not entitled to more than \$50, in adjusted service credit and paid up Veterans' insurance policies to others. The insurance policies will not be issued before next January 1, while the cash payments fall due after next March 1.

President Coolidge's veto was overridden Monday by the senate, 59 to 26, after one of his biggest contests with the legislative branch of the government. His supporters lacked two votes of the one third to sustain a veto. The house had overthrown the veto by a margin of 52 votes over the required two thirds majority.

NEED MORE EMPLOYEES  
Steps for carrying out the provisions of the act, considering that Tuesday's cabinet meeting and Secretary Weeks report, it is necessary to add at once about a thousand employees to the staff of his department. More will be required later.

The preparation of millions of application blanks to be distributed throughout the country is already begun, the plan being to send out first those destined for remote parts of the country so that in a general way applications will be available simultaneously in all sections.

Both chairman Smoot of the senate finance committee and Chairman Green of the house ways and means committee declared Tuesday they expected to get a tax bill out of conference which President Coolidge could sign. Mr. Smoot, however, said it would be impossible for the conferees to check the proposed tax reduction sufficiently to prevent a deficit next year. He added the government might better afford a deficit than to "throw a wet blanket on business through failure to pass the tax bill."

## COUNTERFEIT DEN IS BROKEN UP BY RAID IN KENOSHA

Half Brother Arrested with Complete Paraphernalia for Faking Bills

By Associated Press  
Kenosha — A counterfeiting plot was nipped in the bud here late Monday night when secret service men, operating with the local police, swooped down on an apartment in Kenosha where a complete outfit for counterfeiting paper money was found. James Miteff, 32, one of the occupants of the apartment, was arrested after a struggle in which he was overpowered by the sleuths. Boris Dimitroff, 28, his half-brother and also of Kenosha, was arrested Monday afternoon in Chicago when he attempted to "buy" materials which aroused suspicion. Hidden under the floor in the apartment was found a complete set of dies for printing five, ten, twenty, one and two dollar bills. Under some clothing in the closet was found a money press. Two days more and the counterfeiters could have flooded Kenosha and the lake shore with bogus money. Dimitroff had posed as being a student of chiropractic. Miteff was employed on the force building Kenosha's new court house. Both were musicians. The men were taken to Chicago where they are held on a federal charge of counterfeiting.

## HOUSE HASTENS ACTION ON BILL TO AID FARMERS

Measure Is Planned to Reach Final Vote Saturday at Latest

By Associated Press  
Washington, D. C. — The plight of the American farmer Tuesday was before the house, which probably will decide by the end of the week whether the McNary-Haugen bill should be passed as a relief measure.

The bill which would set up a government corporation to market surplus farm products abroad, will, under plans of leaders advanced by Chairman Snell of the rules committee, reach a final vote by Saturday with at least two night sessions to speed up consideration.

Supported by a majority of the agriculture committee, the measure faced a fight on the part of many Republicans and Democrats who consider it unworkable. Several committee members have announced their opposition although expressing a willingness to permit a vote.

The corporation provided for in the bill would have a capital stock of \$200,000 to be subscribed by the government as needed. Proponents of the measure contend that in the end all money turned over to the corporation would be returned to the treasury.

Provision is made for the marketing abroad of wheat, flour, rice, corn, wool, sheep, cattle, swine or any food product of cattle sheep or swine.

The bill was framed originally by department of agriculture experts. Introduced in the house by Chairman Haugen of the agriculture committee, it has been materially revised by the committee.

## KU KLUX DENIES AIDING MAYFIELD

Klan Official Produces Record in Trial of Texas Senator in 1922

Washington, D. C. — Charges of heavy contributions by the Ku Klux Klan to secure the election of Senator Mayfield in Texas in 1922, were formally denied on behalf of the Klan Tuesday before the special senate committee investigating the contest brought against Mayfield by George E. B. Paddy.

J. E. McQuinn, national auditor of the Klan, told the committee he books did not show the expenditure of a cent by the Klan either in the senatorial primary or election which resulted in the choice of Senator Mayfield. Seconded by other Klan officials, he spread on the committee table a great mass of official records which he said would support completely his statement.

During his examination, counsel for the senator declared they were prepared to prove by other witnesses that no Klan organization contributed to the Mayfield campaign fund, although one local in Texas spent \$4 for postage in connection with the election.

## Jap Envoy Will Quit Post In U.S.

By Associated Press  
Tokyo — Ambassador Hanhara may be "permitted to resign" his Washington post shortly, Premier Matsui told newspapermen Tuesday.

The premier's statement was made to a gathering of representatives of the Japanese press after Tuesday's cabinet meeting at which he admitted the subject had been discussed. The statement was the result of insistent inquiries.

The premier stated that there had been no formal interchanges between the foreign office and the ambassador dealing with the matter, although Tokyo officials have known that Mr. Hanhara was determined not to remain in the United States after the Japanese exclusion clause in the recently enacted immigration bill became effective.

Foreign Minister Matsui emphasized that the ambassador's retirement should it actually become a fact, would be purely voluntary.

## THAW IS FREED AFTER 17 YEARS OF CONFINEMENT

Slayer of Stanford White Plans to Face Final Assault Charge at Once

Philadelphia, Pa. — Free and again in possession of his large estate, Harry K. Thaw, who has spent the greater part of the last 17 years in jails and asylums, plans, his counsel says, to go to New York at once to face the last charge against him, an alleged assault on Frederick Gump, Jr., in 1917.

A civil suit growing out of this charge has been settled out of court and a motion will be made to quash the criminal indictment. The slayer of Stanford White was unconditionally released from the Pennsylvania hospital for mental and nervous diseases Monday night when Judge Monaghan signed the judgment on the jury's verdict, declaring that Thaw was sane. This followed withdrawal of a motion for retrial filed by counsel for Evelyn Nesbit, Thaw's divorced wife, who was permitted to intervene in the case in behalf of her son, William Russell Thaw.

Since the jury on April 22 adjudged him sane and capable of managing his estate, Thaw had been visiting his mother at Pittsburgh. He was on parole and was accompanied by an attendant from the hospital.

## SMITH SECOND TO DAUGHERTY, WITNESS SAYS

Atlanta Agent Claims Friend of Attorney General Gave Orders

By Associated Press  
Washington, D. C. — Orin, the authority of former Attorney Daugherty, orders given by Jess Smith, his friend and companion, were taken and obeyed by the bureau of investigation of the department of justice, testified Tuesday before the senate Daugherty committee.

Bailey, now agent in charge for the bureau at Atlanta, was acting chief from Oct. 1920 to Aug. 1921. He said he was told by Mr. Daugherty to take up all questions with Smith.

"Did you do so?" Senator Wheeler asked.

"Yes," Bailey replied, "except in one or two incidents, where I had some question as to Mr. Smith's judgment and went to the attorney general."

The bureau was being organized during the period, Bailey added, and most of the consultation between himself and Smith dealt with the question of employees to be retained, dismissed or hired. Smith, he said, had an office in the department and "took an interest in anything."

The witness related how Smith had told an assistant chief of the bureau "he had to get out."

Answering a question by Chairman Brookhart, he said there was no reason, in his judgment, for the decision.

"Everybody around the department of justice recognized Smith as the man they had to pay attention to," Bailey said. "He was the most powerful there next to the attorney general."

Senators Seek Opinion of President on Coming World Court

Washington, D. C. — Preparatory to consideration Wednesday by the senate foreign relations committee of pending proposals for American world court membership, Chairman Lodge and several members of the committee will confer at the request Tuesday night with President Coolidge.

In anticipation of the committee discussion in which the views of the president might be considered helpful, Senator Lodge requested a conference with the president.

Mr. Coolidge, however, has not been acquainted with the nature of the questions which Senator Lodge and his associates desire to discuss with him.

## Secretary of First Trust Co. Takes New Position on July 1

SHERMAN HEADS BOARD  
Change Is Made When Veteran Banker Asks to Be Relieved of Part of Work

One of the most important developments in financial circles in Appleton in several years was announced Tuesday morning. The resignation of the Citizens National bank following their meeting at which Henry W. Tuttrup, secretary of First Trust Co., was elected president of the Citizens National bank to succeed John J. Sherman who was elected chairman of the board of directors. Mr. Sherman will continue as president of the bank until July 1 when Mr. Tuttrup will take the position. Mr. Tuttrup has submitted his resignation as secretary of the trust company and as assistant cashier of the First National bank.

The change was made at the request of Mr. Sherman who desired to be relieved of some of the burdens connected with his management of the Citizens National bank of which he has been the head, either as cashier or its president, since its organization, in 1883. Mr. Sherman was elected cashier of the bank in 1893 but the bank did not open until January, 1894. He was county judge of Marathon county before coming to Appleton. Mr. Sherman became president of the bank in 1918 succeeding the late Lamar Olmstead who died in March 1917. During the interim between the death of Mr. Olmstead and the annual meeting of the bank's stockholders in January of 1918, Joseph Rossmore, vice president of the bank, functioned as its president.

Mr. Tuttrup has been secretary of the trust company since its organization in 1913. He was cashier of the Commercial National bank prior to its consolidation with the First National bank and prior to that was a member of the Appleton city commission.

No other changes in the personnel of Citizens National bank is contemplated. William J. Konrad, Jr., will continue as assistant cashier. No announcement has been made by First Trust Co. as to Mr. Tuttrup's successor as secretary.

## Wisconsin Boomed As State Of Home Owners

Wisconsin's great ambition, according to some of the officials in Madison, is to lead the nation as a state of home owners. Wisconsin now is in second place, with more than 68 per cent of its people owning their own homes, but is about 1.7 per cent behind North Dakota which leads the nation. Wisconsin is far ahead of Illinois, Indiana, Michigan and Minnesota as a state of home owners and it is striving to better its position.

"Own Your Home Week" will be observed here from May 28 to May 31. It is expected to stimulate home ownership in Appleton so that the proportion of home owners will be materially increased. There are few cities in the country where more people own the homes in which they live than in Appleton. It is estimated that more than 3,600 families live in their own properties.

The joys of home owning are pictured in an entertaining way in the motion picture, "The Great Idea," which will be shown at the Elks theatre on Monday, Tuesday and Wednesday of next week in connection with the regular program which will consist of the feature, "The Gold Fish," featuring Constance Talmadge. "The Great Idea" describes the building of the world's most perfect home and has a splendid romance built into it.

Dealers in building supplies and contractors are cooperating to make this special edition of great importance to every one who owns a home or contemplates owning one.

## TOURISTS WARNED NOT TO TAKE TREES FROM STATE WOODS

Danger of Spreading Plant Diseases, Farm Department Points Out

A warning to tourists against digging up and carrying away trees from the woods of Wisconsin was issued by the state department of agriculture. Such action subjects trees and forests in other sections to the danger of distributing insect pests and plant diseases, it is declared.

"White pine especially is to be avoided for this reason," Dr. S. B. Fracker, state entomologist, declares. "The white pine blister rust, which reached Wisconsin on imported trees from Europe, is fatal to the pine woods and state and federal governments have sent large sums in bringing it under control. State and federal quarantines are in effect prohibiting the moving of this tree."

A rare member of the gipsy moth family, known as the pine tussock moth, also is present in certain parts of Wisconsin woods and this pest, if introduced into new localities, might result in serious losses.

Several of the most injurious and costly insect pests have been carried over the country through the transportation of trees, officials declare. The San and Jose scale and oyster shell scale on fruit trees are said to be examples.

It is pointed out that state regulations require that before trees are transported to other sections, they should be inspected by the state department. Such inspection is done free of charge, officials declare.

## WIFE GETS HUSBAND'S PAY BY ORDER OF COURT

Employers of Frank Burgett, Oshkosh, were ordered by Judge A. M. Spencer in municipal court last week to pay Burgett's wife living in New London \$2 a day for her support. Burgett was arrested on the charge of abandoning his wife. He is employed in a furniture factory at Oshkosh.

## Dealers Agree On Most Popular Song In City

Once more a song has taken the country by storm in much the same manner that "Barney Google" and "Yes, We Have No Bananas" did. This time it is "There's Yes Yes In Your Eyes," which was listed as the most popular song in both phonograph records and sheet music at all music stores. It has been on the list of popular records and sheet music for several weeks, but recently has become more popular than ever.

Edwin Tillman's song, "Tears of Happiness" was listed by all stores as one of the most popular songs in sheet music. The piece is more difficult than "Lonesome and Blue" one of his most popular songs, but indications are that it will be just as much in demand.

Among the "hit" in phonograph records are "Memory Lane," "From One Hill Two," "Hula Lou," "Worried," "War Horse Mama" and "Adoration Waltz."

The popular sheet music numbers are "What'll I Do," "Hula Lou," "From One Hill Two," "Hula Lou," "Worried," "War Horse Mama" and "Adoration Waltz."

## Rural Pupils Read Books As Part Of Work

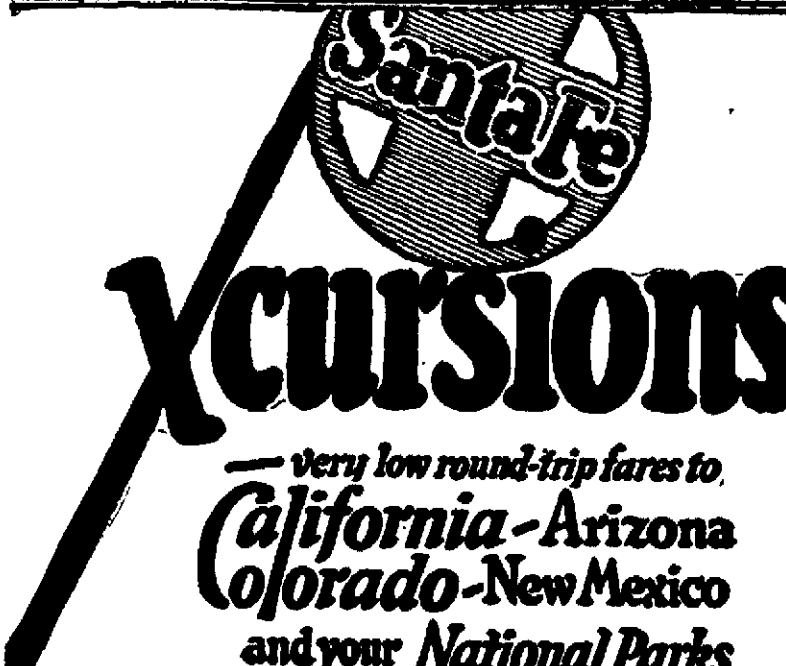

Diploma examinations taken by seventh and eighth grade pupils of Outagamieco rural schools within the last two weeks show that very few children have failed to complete the state prescribed reading circle work. Reading circle work was made one of the essentials this school year which means that no pupil who has not completed the reading circle work can be promoted. Report cards are being held up by the county school superintendent's office to give those pupils who have not finished the required number of books an opportunity to do so. Pupils who desire to graduate have but 10 days or two weeks in which to complete their reading circle work. The list prescribes one book for each six weeks, but some pupils have read as many as five times the number of books prescribed.

## ADVERTISE PLAY BY H. S. SENIORS

Green stockings hang from every conceivable place in Appleton high school to remind the students that the play by that name will take place at Appleton theatre on May 28. It is the annual senior play and will mark the completion of interesting high school dramatic careers for several of the cast. LOW BIDDER ON  
SEWER CONTRACTBoard of Public Works Also Re-  
ceives Bids on Road  
Materials

Kaukauna—A meeting of the board of public works was held Monday evening in the city clerk's office to consider bids and proposals which were opened at 4 o'clock Monday afternoon. Bids were received for a sewer job on north side streets, for the purchase of road oil and a road scraper. Five contractors offered bids on the sewer work but only two could be considered. The other three omitted their bid on the sewer which was included in the specifications.

Wilson Co. of Appleton, was the lowest bidder on the sewer project with \$12,982 and the board will recommend the contract to that company at a special meeting of the common council Tuesday evening. The project includes work on the streets as follows:

Kaukauna-st. storm sewer, 1,160 feet in length with 30 inch pipe including 10 catch basins and 5 manholes; Draper-st.—three hundred feet of eight inch sanitary sewer with one manhole; Oak-st.—sanitary sewer, eight inch pipe and 400 feet long with two manholes; Diederich-st.—eight inch sanitary sewer 330 feet long with one manhole.

Other bids on the work were G. W. Mulholland, Rockford, Ill., \$13,438; Mierswa Construction Co., Oshkosh, \$12,254; E. A. Jahr, Antigo, \$12,712.50; John Brogan and Son, \$13,597. The last three bids mentioned did not include the work on Diederich-st. and therefore were not qualified.

Three companies offered bids on 30,000 gallons of road oil to be used this summer on city streets. They were American Mexican Refining Co., \$5.93 per 100 gallons; Standard Oil Co., \$5.99 per 100 gallons; Camden Petroleum Co., \$6.25 per 100 gallons.

Bids on road graders were Russell Grader Manufacturing Co., \$355; Austin Western Road Machine Co., \$440; John T. Thummers, \$510. The bids on oil and road graders will be recommended to the council Tuesday evening for final action.

JUNIOR BALL TEAM  
WINS SCHOOL TITLE

Kaukauna—The junior baseball team practically clinched the high school interschool championship last week when it romped away with the sophomore team, 8 to 0, after having previously played two games in which the two teams were tied. The games were played after school.

It was a real pitcher's battle. Mereness, hurling for the juniors, fanned 13 batters while Bentrack, the sophomore ace, whiffed 15 hitters. The juniors have won four games, tied two and lost one while the sophomores won two games, tied two and lost one. The freshmen team lines up third on the list with one win and four defeats. The senior team played only one game and lost that. They are scheduled to meet the juniors in the final game of the series this week but even a victory for the class of '24 will not be enough to displace the juniors.

The teams in last week's game lined up as follows:

Juniors — Dix, catcher; Mereness, pitcher; Kern, first base; Smith, second base; Miller, short stop; Elder, third base; Licht, left field; Glasheen, center field; Peters, right field.

Sophomores — Radder, catcher; Bentrack, pitcher; Sasnowski, first base; Farwell, second base; Goldin, short stop; Boyd, third base; Haas, right field; Stein, center field; Poesen, left field.

MARRIED WOMEN  
CAN'T TEACH IN  
KAUKAUNA SCHOOLSBoard of Education Decides  
Against Permitting Mar-  
ried Women on Faculty

Kaukauna—There will be no married female teachers in Kaukauna public schools next term. A resolution was adopted at the regular meeting of the board of education Monday evening barring married female teachers from their positions. The resolution also includes that teachers who are married during their term will automatically cancel their contracts with the board. The decision takes effect at once and new contracts for next term will be furnished the teachers as soon as they can be prepared. The motion was carried by a majority after considerable discussion. A motion was made previously that the president and secretary be instructed to sign the contracts of those teachers who have already turned in their agreements but the motion was lost when President H. T. Runte voted in the negative to decide a tie vote.

Other business included election of officers, recording of the sale of the janitor property, a decision to enter into contract for advertising and a session with Mr. Parkinson, architect, relative to allowance to the contractors for various extras incurred in the construction of the new high school. Herman T. Runte was reelected president of the board on the first ballot after he had expressed a desire to turn over the honor to another. He has been president for two terms and expressed the opinion that the honor and duty as president should be passed about. He insisted on a ballot but the first returns gave him five out of seven votes and he was declared re-elected. Edward Grobe was elected vice president, an office which had not been filled previously. Miss Eva Pearl Grebe, not a member of the body, was reelected secretary.

The "janitor property," which formerly was occupied by the janitor of Park school and which is located on Brother-st. just back of the school, was sold by the board to F. A. Mikole of this city for \$1,500. The officers of the board were authorized to enter into contract with the Kaukauna Times Printing Co. to pay \$100 a year to that company for printing the minutes of the meetings in the news columns.

FISHING CLUB FAILS TO  
SET RECORD FOR CATCHES

Kaukauna—The Kaukauna Fishing club made its annual excursion Sunday to catch the finny inhabitants of the deep and returned with a little more than fisherman's luck. The results of the trip were turned over to John McCoy for his private benefit and satisfaction to partly console him and to relieve his disappointment over his failure to gain membership in the club. Officials of the club Monday declared that McCoy's application had been thoroughly considered but that he was judged too young and inexperienced to be a member of the select organization, which includes only expert anglers.

Apparently, however, Mr. McCoy's disappointment has not been alleviated by the thoughtfulness of the club for he is boldly displaying the trophy of the day in his display window under a placard which announced "Monster fish caught by Ves Berens Sunday." Points of visitation during the annual excursion included Bay Boon and Winneconne and members of the club who made the trip were Ves Berens, Edward Rennieke, G. S. Mulholland, Edward Haas and Henry Olm.

KIMBERLY SCHOOL  
HOLDS GRADUATION  
WEDNESDAY NIGHTComedy by Eighth Grade Pupils  
Will Be Part of Program  
at Clubhouse

Special to Post-Crescent

Kimberly — Commencement exercises of the state graded school at Kimberly will be held in the community clubhouse Wednesday evening.

The program will open with a musical selection by Jane A. Malcom, and a commencement talk by the principal of the school, E. F. Jilison. A reading by Marion Wilson, "The Van-dia Teacher," will follow.

A play, "The Arrival of Billy," by eighth grade students then will be presented. The henpecked husband, Harvey Kobs, will be assisted by Anna Poppe in the role of the modern woman. The play is a depiction of the two trying to dodge the responsibilities of matrimony. A nephew of the husband is supposed to arrive on the 10:26 train and the husband is rushed off to secure playthings for the four year old boy, Billy, who is about to arrive for a vacation.

The curiosity of spinsterhood is aroused and a general flow of conjectures as to who and what Billy is and how he ought to be taken care of is heaped upon Mr. Sherwood. The rest of the play is more amusing than the short introduction sketched given above.

The cast of characters is as follows: Harry Kobs, Mr. Sherwood; Anna Poppe, Mrs. Sherwood; Julia Schneider, the trained nurse; Beatrice Hendricks, Mrs. Noyes and the mother of Mrs. Sherwood; Elizabeth Krosenke, Mrs. Nelson and an old maid; child of an old-fashioned family; Grace Anderson, an inquisitive old maid.

Following the play another musical selection will be given by Jane A. Malcom on the piano. The presentation of diplomas will then be made by the principal, E. F. Jilison.

The school picnic will be divided into two sections. The upper grades will have their picnic on Thursday and the kindergarten and intermediate classes on Friday. School will close for the year on Friday at 3:30.

## NEW LONDON NEWS

R. V. Frahl Phone 122-R  
New London RepresentativeCLINTONVILLE MAN  
NAMED PRESIDENT  
OF RURAL CARRIERSUse of Snowmobile and Paint-  
ing of Boxes Among Topics  
at County Meeting

New London—The Rural Mail Carriers association of Waupaca and Portage counties held their annual meeting at the city hall in New London Sunday. A small number of visitors were present, but most of New London's carriers attended. A picnic had been planned to be held at the ledge, but on account of previous rain and high wind it was called off. It was decided that picnics would be held later in the year, as at this time weather conditions are not dependable.

Officers for the coming year were elected as follows: F. J. Long, Clintonville, President; William Hoffman, Sugar Bush, vice president; Arthur Johnson, Waupaca, secretary and treasurer. Arthur Johnson and Elmer Witt of Manawa, were elected as delegates to the state convention. The next county meeting will be held in Scandinavia the third Sunday in May 1925.

Several questions of interest to rural carriers were discussed. One was in regard to mail boxes. According to government rules boxes should be painted white with the name of the patron on the box. They are supposed to be erected on the right hand side of the road judged by the direction the carrier is traveling. Although many corrections have been made there are still many boxes in need of this change. Carriers are anxious to have this done, as mail is much more easily and quickly delivered than when boxes are inconveniently placed.

Much less damage is done to mail boxes having good approaches, the carriers said.

Often on slippery roads where boxes are on a down hill slope they are broken or pushed over. This is not the fault of the carrier for in driving up to the box a slight slew of the car will do the damage. It is therefore an economy to the patron if he keeps the approach in good condition. Improper use of flags is also a delay in delivery.

The use of the snowmobile was another topic discussed. This invention has been brought to the attention of carriers by local dealers and highly recommended. In this locality they probably will not be used extensively for some time to come. The expense is too great to begin with and they are not dependable enough, it was said.

BoxingPapermakers Invade  
Green Bay On Sunday  
In Third Tilt Of Year

Appleton Club Expects Hard Contest with Baymen After Easy Victories Over Kaukauna and Fond du Lac.

After coping two easy victories the Papermakers are scheduled to invade Green Bay next Sunday for their third contest of the season, on which occasion they expect to have considerably harder work than they experienced with Kaukauna and Fond du Lac. As it turned out Sunday, they did not have to extend themselves to beat the Redlegs here, although the Papermen put up a better game than the Electric City outfit.

Green Bay Sunday swamped a strong Milwaukee aggregation, the McCoy-Nolan Giants, 11 to 3, and thereby showed great improvement over its one previous effort, in which Sheboygan walked off with easy honors. The Giants are colored boys and are known throughout the state as a fast and hardplaying outfit.

Earl Howard, doing duty on the mound, held the Negroes to nine well scattered hits and retired nine of them by the strikeout route. The Baymen still were rather weak in the field, but a week's practice will do a lot to eliminate that deficiency. Old Chief Williams is with the Green Bay, club again, and proclaimed his presence with a circuit drive in the seventh with the bases full. The Chief is popular and known throughout the McGowan circuit, and still is going strong.

**"DOC" DELMORE WITH BAYMEN**  
Another familiar figure on the Bay outfit is "Doc" Delmore of Two Rivers, who acted as backstop for Appleton most of last year. When he's going good, there is hardly a more dangerous swatman in the loop than Delmore, and his work behind the log has always been above the average.

The Baymen will have to be good to get the best of the Papermakers Sunday. Most of the Appleton men are hitting good this year, and their fielding is above reproach. Eddie Stack is one of the best hurlers Appleton has had in years, according to the work he has done in his last two starts, and need fear no rival in the league.

"Shorty" Wenzel who has been catching for Appleton ever since Delmore's life, is reported to have enlisted in the United States army. Ebbings of Milwaukee took his place against Fond du Lac Sunday, and garnered a well placed twobagger in his first time up. Possibly he will journey to Green Bay with the team Sunday, although he has not yet been signed.

HARRIS HARDEST  
BATTER TO FOOL.  
JOHNSON THINKS

Famous Pitcher of Washington Club Admits Joe Is Troublesome to Him

Who is the most dangerous batsman in the American League?

Harry Hellmann of the Detroit Tigers is tough picking. Babe Ruth, Bob Meusel and Wally Pipp of the New York Yankees are much feared. Ken Williams of the St. Louis Browns breaks up many a ball game. Each club has one or more crack hitters.

Walter Johnson, famous pitcher of the Washington club, doesn't say that Joe Harris is the most dangerous batsman in the American League, but frankly admits that no one is more troublesome to him.

"Harris is a remarkable batsman," says Johnson, "he hits all styles of pitching with equal ease and sends them to all fields. It is impossible to play for Harris. I doubt if any big leaguer follows a fast breaking curve better than Harris."

To what Walter Johnson says, Eddie Rommel, crack pitcher of the Philadelphia Athletics, adds:

"Most hitters find my knuckle ball troublesome, but I have yet to badly fool Harris with it."

MR. J. WEISSMULLER

JOHNNY WEISSMULLER is a swimming whiz who has been in the water since he was a baby. He is reported to have enlisted in the United States army. Ebbings of Milwaukee took his place against Fond du Lac Sunday, and garnered a well placed twobagger in his first time up. Possibly he will journey to Green Bay with the team Sunday, although he has not yet been signed.

The Chicago German takes to water like a duck with a set of parched tonsils; he's faster than a fish and twice as hard to catch.

What is a mere Saturday night bath to the average tax evader before the law?

comes a new world's record, with no dissenters, when Weissmuller steps into the tub.

Noah took what practically amounted to a masterpiece in floods and made nothing more of it than an interesting biblical episode; Weissmuller would have taken it and rewritten the swimming history of the universe.

Equipped with a flock of piscatorial legs and a pair of amphibious arms Weissmuller manages to get along swimmingly all the time.

Even Mr. Volstead never dreamed a guy could blow himself to such a record-breaking orgy and use nothing but water.

Trying to figure out a way to fool Babe Ruth at the bat is a waste of time.

A moral victory in football is any game Harvard loses. A moral victory in swimming is when you finish within 15 lengths of Weiss the Mulier.

The young gent uses a modified Australian crawl, and if they crawl that fast in Australia what's the speed limit for running?

NEW LONDON HIGHS SINK EDISON TEAM

New London high school team Saturday afternoon outplayed the Edison club of the Cabinet and Panel Co., 19 to 17. Feeling ran high during the contest, and the pitchers came in for an unusual amount of "razing." Cupire Eichhorn had a difficult job keeping matters straightened out, but the contest was finished without serious trouble.

Guy Peck, who pitched for the Edison, did his stuff like a veteran, but was not quite good enough to overcome the skill of Huntley.

The lineup: High School—Huntley, P. Smith, C. Ludwig, 12, Roloff, 2B, Knapp, 2B, Lowell, 1B, Arnold, CF, Fejcz, RF, Charlesworth, SS, Edisons—C.F. Klatt, RF, Krueger, LF.

NEW LONDON WINS  
FROM DEPERE, 6-3

Boosters Outplay Invaders in First Home Tilt of Season

New London Boosters Sunday afternoon won their first home game of the year, 6 to 3, from a DePerre aggregation. Both teams played in mid-season form despite the cold weather.

Attendance at the contest was far from satisfactory. The backers of the club feel that as they and the players are working hard to give the public a good brand of baseball, the fans should turn out in greater numbers.

New London garnered 11 hits to 7 for the invaders. Munding retired 10 batters by the strikeout route, while McCough accounted for 4 and Nolton for 2.

The batteries: New London—Munding and Rohloff; DePerre—McKough, Nolton and McKan.

The Boosters still have several open dates and announce they would like to hear from strong semi-pro teams. They will play a return contest at DePerre on Sunday, May 25.

AMERICANS PLAY TWO

Only two games were scheduled in the American league. Boston defeated Detroit, 9 to 1, and pulled a half way game away from St. Louis and to within one contest of the leading Yankees. Wildness by three Tiger pitchers in the second inning was mixed with three hits for six. Red Sox run.

Hellmann had two of the six Tiger hits off Ehman.

In the other game the Athletics won their second contest in 17 starts by beating the White Sox, 4 to 3. Rommel twirled fine ball after an absence of several days from the lineup. Each team made four two-base hits.

Eddie Collins was appointed acting manager of the White Sox during the absence of Johnny Evers who is recovering from an operation. Ben Griggs, pitcher, was released to Braves after being with the Giants since last summer. Manager McGraw, visited by a recurrence of an old knee injury, was absent from the bench at Pittsburgh.

"Red" Wingo, Georgia collegian, brother of Irv, veteran Cincinnati catcher, broke into the Tiger's lineup but failed to hit. Early in the season Cobb had high hopes for him as a slinger needed to bolster the attack with Fotherthill, former Three Eye leaguer. He will not be disappointed as both utility men will show better with more opportunities to play. Georgia fans believe Wingo may eventually replace Cobb.

A total of 153 home runs have been scored to date in both major leagues—55 in the National and 71 in the American. Particularly enough the latter circuit has Babe Ruth, leading four-base hitter, who has hit 2 home runs with Fotherthill, former Three Eye leaguer. He will not be disappointed as both utility men will show better with more opportunities to play. Georgia fans believe Wingo may eventually replace Cobb.

Billie Terry, former Toledo American association infielder, continued his hitting feat Monday, getting a triple, double and single in four trips to the plate and scored one of the Giants' three runs although Pittsburgh won 6 to 3. Hain fell almost continuously throughout the game.

Eddie Collins has temporarily replaced Johnny Evers as manager of the Sox due to the latter's absence for an appendicitis operation. Collins received word from owner Comiskey Monday. Harry Grabner, secretary of Monday. Harry Grabner, secretary

QUESTIONS

1. When two players collide in going after a batted ball and suffer injury, when is the proper time for the umpire to suspend play?—W. B.

2. If after two strikes have been pitched to an improper batter, the team at bat discovers the mistake, can the proper batsman be substituted?—P. D.

3. If with two out, a base runner is hit by a batted ball which retires the side, does the batsman receive credit for a hit?—E. B.

ANSWERS

1. Time can not be called until all chances for a play have ceased, and the pitcher stands on the rubber with the ball in his possession.

2. The proper batsman can be substituted when the mistake is discovered. He simply takes the count that was on the improper batter.

3. The batter always receives credit for a hit on such a play, no matter what the status of the game may be.

Western Clubs Lead  
East By One Contest  
In Each Major Loop

Giants Slide Out of First Place By Dropping Unimpressive Game to Pirates, 6 to 3, in Pittsburgh.

Western clubs in each league have now won one more game than their eastern rivals in the present inter-sectional series.

In the National, playing on their home grounds, the western representatives have won 17 and lost 16 games. The series in this league has been featured by the failure of the sectional leaders, New York and Cincinnati, to cope with the supposedly weaker opponents like St. Louis, Boston and Philadelphia.

In the American league, the west has won 14 and lost 13. The Athletics have won only two of their eight struggles but other eastern teams have outplayed the invaders except the St. Louis Browns, who have won four of their five games. In both leagues the west has captured 31 of 60 games.

On a rainy field at Pittsburgh Monday the champion Giants contained their unimpressive work and slid out of first place by losing to the Pirates, 6 to 3, while Cincinnati was prevented from meeting Brooklyn by rain which also postponed the Boston-St. Louis and Philadelphia-Chicago games in the National. McGraw's fortunes, rising and falling as his pitcher vacillated, descended with John Watson whose wildness decorated almost every Pirate run. Frisch and Terry erred almost four hits and a walk in the sixth inning and the Pirates scored four runs, which a ninth-inning Giant rally failed to match. Morrison pitched a good game.

PINKEY MITCHELL  
WILL BOX FREEMAN  
IN CRESCENT CITY

May 30 Is Date Set for Battle of Milwaukee Champ in New Orleans

Milwaukee—Pinkey Mitchell, Milwaukee's only fltic champ, was matched on Monday to meet Tommy Freeman of New Orleans in the Crescent city on May 30. Freeman is the new welterweight champion of the south and recently gave Johnny Tillman an artistic lacing.

Mitchell was practically matched to meet Basil Gagliano, but the Italian star demanded that Pinkey weigh in at 140 pounds ring-side. This was refused by the Mitchells, and Freeman was given the bout instead. The weight will be 145 pounds at 3 o'clock, so Pinkey will be forced to give considerable avoidrups away.

Mitchell has a number of other offers in sight. Manager Billy announces, Helena, Mont., promoters want him to box Simonich again while Omaha has offered him a bout in the open air with either Warnie Smith or Morris Schlefer. Young promoters want him to box Jimmy Jones, and it is probable that this offer will be accepted as Jones is a great drawing card in that part of Ohio.

36 GOLFERS ENTER  
"PRO" TOURNAMENT

By Associated Press

Atlanta, Ga.—Thirty six golfers, the pick of southern professional talent, teed off here Tuesday in the opening round of the Georgia-Alabama Professional Golfers association annual tournament which will continue through Wednesday. Several amateurs also are entered.

The feature match of the day will be that between Bobby Jones, national open champion, an amateur, and Charlie Hitt, of the Birmingham Country club.

Reb Russell, former major leaguer, made four singles in four times at bat for Columbus in the American association at Toledo Monday, the Mud Hens winning, 9 to 4.

Kid Gleason, former Sox manager, visited with the Sox at their hotel in Philadelphia Monday. He has been falling in health for the past several months.

President John Heydler of the National league was in Chicago Monday but failed to state his business. Commissioner Landis kept him interested in golf during the afternoon.

Urban Shocker, St. Louis Browns catcher, was called from Washington Monday to Cleveland on account of death of his mother.

Charley Hollocher, Cub shortstop, is satisfied there is nothing wrong with his stomach. X-ray plates having been shown to him Monday and failed to reveal any indications of an ailment. Hollocher jumped the club last season and refused to report until a few weeks ago claiming he was ill.

The Papermakers seem to be headed for the first division of the Wisconsin State League. They easily sunk the Fond du Lac Red Sox Sunday afternoon, putting enough runs in the first inning to give them easy sailing for the rest of the game. An error gave the invaders their only run, and saved them from a whitewashing.

It looks as though anything the league moguls can do is unable to stop the old trick of "doctoring the ball." In the Fond du Lac contest here Sunday perfectly new balls sent into play while the Redlegs were in the field came out looking as though they had been put through a meat chopper. Possibly some of the Fond du Lac players had been shoveling gravel and so roughened their hands that the callous cut the horsehide.

Menasha put a crimp in Billy Leeb's dedication of the new Sheboygan ballpark by whitewashing the home team, 2 to 0. However, the attendance was good enough to reconcile almost anyone to dropping a game, and if reports are correct the receipts from 3,500 fans now swell the coffers of the contending clubs.

Kaukauna improved somewhat over its previous showing against Appleton, but lost, 6 to 2, to the Oshkosh tribe. Geriz, "Stormy" Kromers homelant pitcher held up pretty well until the eighth when he was baited all over the lot. Oshkosh is by no means the strongest outfit in the loop, but evidently there is a weaker one.

FOX RIVER CLUB  
HUMBLES MENASHA  
RIVERVIEWS, 11-4

Appleton Mill Team Shows Class in Contest with Twin City Outfit

Fox River Valley Paper Co., team Sunday afternoon swamped the Menasha Riverreviews, 11 to 4, in an almost errorless contest despite the high wind which rendered the judging of hits nearly impossible. The game was close up to the seventh, when a circuit drive by Bill Lasz with two on put the F. R. V. outfit in the lead. This was Last's second homerun of the game, having poled one in the second when he was the first man up.

The Menasha outfit hammered out three two-baggers, but the Appleton Millmen went them one better. Cully was responsible for one of the River-view two-base hits, and Zell for the other two, while Klundt and H. Tornow each poled one for the Fox River team, and S. Tornow hit two. Sokol spoiled a triple for Bates when he appeared a linedrive high over his head with one hand, and LaRoux duplicated the feat for one of the Menasha players.

Joe Mayefski pitched for the Riverreviews with moderate success. He is a veteran of Stormy Kromer's sandlotters, and played in the outfit for the Appleton Regulars last year. Mayefski retired four hostiles by the strikeout route, while H. Tornow did the trick for 10.

The score by innings: Riverreviews ... 0 0 3 0 0 2 0—4  
F. R. V. P. Co. 0 1 0 2 0 4 0—11

# PEACE WILL COME WHEN GOLDEN RULE IS BUSINESS RULE

Lions Hear Interesting Address on Capital and Labor Relationship

When employer and employee base their relationship with each other on the Golden Rule, then will capital and labor reach that happy understanding that will do away with strife and jealousies and will work together for the upbuilding of their common country. F. R. Short, Educational director for the J. C. Penney Co. declared in an address before Appleton Lions club Monday night. Mr. Short declared that capital, brains and physical energy should share in the profits from their combined energies and urged Lions to operate their affairs according to the principles of the Lions club.

"What this country and the world needs is a something that will bridge the gap between capital and labor," Mr. Short said, and then he proceeded to tell how the gap might be bridged by stimulating a greater friendship between employer and employee. The country cannot get along well long if either capital or labor is removed and inasmuch as each is necessary for the success of the other, their best interests require that they meet each other on the common ground of unselfish understanding," he said.

## ALL ARE NEEDED

These three elements that contribute to success are capital, brains and physical energy. All three are necessary to success of any business venture and because all three are essential and contribute to the general success, Mr. Short urged that there be an equitable distribution of profits between them, giving to each its just share of what he has earned.

If employer and employee view themselves in the position of the other fellow and will treat each other in the way they would like to be treated if their conditions were reversed, the difficulties and differences between capital and labor would be wiped out, Mr. Short said.

Dr. W. J. Frawley, new president of the club, had charge of the meeting and announced appointments of standing committees. Further details for attending the district convention of Lions in Green Bay on May 26 and 27 were discussed. Most members of the Appleton club will attend one or two days of the conference.

# LAKE REGION ROAD IN GOOD CONDITION

Highways Have Been Greatly Improved in Last Few Weeks

Roads to the Land of Lakes region are again in fair condition at least on the Clintonville-Rhineland route, which was in a deplorable state three weeks ago. Fear of that route kept a large number of tourists off those roads with the consequence that the roads have been improved wonderfully. Considerable repair work also has been done within the last week or two. The only bad stretch that an Appleton party found on the route was a bi-pass for bridge under construction about 15 miles north of Appleton. It is located between Kampston and Koenigsberg and a part of this road was about two feet under water for a few feet. The trip was made by way of the concrete road to Clintonville, by County trunk line D to Appleton and state trunk highway 39 to Rhineland, and was covered in less than five hours.

# BUILD SIDETRACK TO ROAD BUILDING JOB

Northwestern Railway company is engaged in building a new sidetrack at McCarty's crossing which will be used by Koepke Brothers, who have the contract for widening the Snyderville road from 9 to 20 feet and for straightening out the sharp curves. As soon as it is completed a cement house will be constructed and material will commence arriving. The contract calls for widening the road for 4 1/2 miles. The culverts are nearly all completed.

Introduces Mrs. Castle in a series of whirlwind events. She dances, rides, swims and wears a number of stunning wraps and gowns that will no doubt be the envy of every woman in town. The action of the story takes place in New York City and in picturesque Palm Beach. It is a modern story, written by Charles K. Harris, and is said to provide her with some of the best opportunities of her career.

## NELLIE, THE BEAUTIFUL CLOAK MODEL

"Nellie, the Beautiful Cloak Model" the Goldwyn feature coming to the Elite theatre is the screen version of the famous Owen Davis melodrama which enjoyed a popular run in New York several years ago. As a stage play it is one of the most thrilling "twists ever written."

For this production Emmett Flynn selected one of the greatest casts of the year. Claire Windsor plays the title role. Mae Busch, Lew Cody, Raymond Griffith, Edmund Lowe, Hobart Bosworth and Lilian Tashman, famous Follies beauty, compose the array of celebrities in "Nellie, the Beautiful Cloak Model."

Continuing with the Goldwyn policy for realism and accuracy, Emmett Flynn took this expensive array of stars to New York City to film scenes on the elevated tracks, and various streets in the city. He then returned to California where interiors were made in the studios at Culver City.

Proof of which may be found in the current photoplay at the Elite theatre—"Cytherea," Goddess of Love a First National picture, presented by Samuel Goldwyn and produced and personally directed by George Fitzmaurice. Included in the stellar cast are Lewis S. Stone, Alma Rubens, Norman Kerry, Irene Rich, Constance Bennett, Betty Bouton and Charles Wellesley.

Lee Random (Mr. Stone) is sent by his matter-of-fact wife, Fanny (Miss Rich) to break up a budding romance between Peyton Morris (Mr. Kerry) and a flapper (Constance Bennett). He finds the task an easy one, for "puppy love" is flake, but he himself falls under the spell of the flapper's beauty and magnetism.

MRS. CASTLE AGAIN APPEARS ON SCREEN

Mrs. Irene Castle, famous danseuse and actress, appears again on the silver sheet in "Slim Shoulders," which comes to the New Bijou theatre Wednesday and Thursday.

It is difficult to estimate in advance the welcome that local theater patrons will accord this celebrated and popular artist. Suffice to say that the New Bijou theatre will no doubt be crowded to capacity. Whenever she appears in this city Mrs. Castle has always been favored with capacity audiences, whether appearing in person or on the screen, and it is safe to assume, therefore, that "Slim Shoulders" will draw record houses at each performance.

# Earth Quakes Under Hawes But He Doesn't Know It

To be in an earthquake and not be aware of it was the experience of a former mayor of Appleton, who is spending a few months in southern California. In a letter bearing a Los Angeles date he said he went over to La Habra to call on former Wisconsin friends, going 50 miles by rail and changing cars at Santa Fe Springs. He was surprised to read in the Los Angeles Evening Times that an earthquake had occurred at Santa Fe Springs while he was there, he said.

"I was in blissful ignorance of the demonstration," he declared, "and spent most of the afternoon motor-ing through the orange and avocado groves with our friend, Red Lindauer, whom you will remember as a good football player and all around athlete of Kaukauna."

"We visited Whittier, Nunnahelm and La Habra, driving about 50 miles through the valleys and foothills and prosperous oil fields. All of these towns are growing rapidly and have very substantial municipal improvements and excellent transportation."

**OPERATE STONE QUARRY**

"Luther Lindauer, formerly of Kaukauna, and sons are operating large stone, sand and gravel quarries and W. J. Rhodes, formerly of Appleton is actively interested in real estate, banking and furniture business with his son-in-law, Mr. Williams."

"I am greatly indebted to our friends, Mr. and Mrs. Edward P. Humphrey for several very delightful motor trips to Hollywood, Beverly Hills, Santa Monica, Flint Ridge, Pasadena, and many other interesting and beautiful drives. They have lived here several years and are very familiar with the drives in southern California and are able to point out and describe many points of interest that might otherwise escape our observation."

"Perhaps the most interesting sights on a clear day are the foothills and mountains which are being subdivided, sold and built upon by persons of ample means. There are hundreds of beautiful homes just completed and surrounded by wonderful grounds and shrubbery that are valued at \$50,000 to \$250,000, and in-

all other flowers are in full bloom and it is said they will remain in this condition during the entire year as adequate irrigation and the absence of cold weather promote constant growth and development.

"Just now in addition to miles and miles of blossoming rose bushes, geraniums from four to twelve feet high form hedges or cover the sides of fences and small buildings. The gladiolus are much in evidence also and are a riot of color."

"Perhaps I might mention that the public school buildings and playgrounds in California are one of the great attractions to the visitors to this state. Most of these buildings are new and modern and of great variety of architecture."

"I am meeting many former Wisconsin friends, all of whom are looking healthy and appear full of enthusiasm and confidence in the future of California."

**5 cents - 7 days**

If an average family of five persons bought only Swift & Company meats for one week during 1923, that family would have paid the company, as profit, less than 5 cents on the week's supply.

These figures are developed by considering U. S. Government statistics on meat consumption in relation to Swift & Company's profit.

By the intelligent use of capital, Swift & Company prepares meats in a modern, sanitary, scientifically-clean manner.

By intensive organization, Swift & Company distributes every variety of meat under complete refrigeration, to retail markets of great cities and small hamlets—wherever they may be located.

It is only through the most efficient methods that a company can supply the meat requirements of a family of five persons, anywhere in this country, for a period of seven days, at a profit of only 5 cents.

Swift & Company's profit from all sources in 1923 averaged only a fraction of a cent per pound on all products sold.

# DISTRIBUTION IS TRADE PROBLEM

Hugh G. Corbett, secretary of the chamber of commerce, returned to the city Sunday after an absence of about two weeks. He attended the convention of the Chamber of Commerce of the United States at Cleveland and then spent a week at Battle Creek, Mich. taking treatments at a sanitarium. Seymour Gmelin, national councillor of the Appleton chamber, also attended the convention.

Mr. Corbett declares that the keynote of the national convention was the necessity for business men to give more attention to distribution than production in the future.

The secretary also found that the traffic safety movement is becoming nationwide. Clubs similar to the Safe Drivers club of Outagamie co are being organized in many cities and are doing extensive work to bring about safety on the streets and highways. He will urge a meeting of the local club soon at which he will tell what is being done elsewhere.

# SO BIG

By Edna Ferber

(Continued from Our Last Issue)

"Spring, half of the land is under water. My piece, just. Bout's place, next to me, is high and rich. Bout's don't even need deep ploughing. His land is quick hand. After rain it works easy. He puts in fertilizer, any kind, and his plants jump, like. My place is bad for garden truck. Well, all the time, wet or in summer baked before I can loosen it again. Muck-land."

Selma thought a moment. She had heard much talk between Knaas and Jakob, winter evenings. "Can't you do something to it—fix it—so that the water will run off? Raise it, or dig a ditch or something?"

"We-ell, maybe. Maybe you could. But it costs money, draining."

"It costs money not to, doesn't it?" He considered this, rummaging. "Guess it does. But you don't have to have ready cash to let the land lay. To drain it you do."

Selma shook her head impatiently. "That's a very foolish, short-sighted way to reason."

He looked helpless as only the strong and powerful can look. Selma's heart melted in pity. He would look down at the great calloused hands; up at her. One of the charms of Perus DeJong lay in the things that his eyes said and his tongue did not. Women always imagined he was about to say what he looked, but he never did. It made otherwise dull conversation with him most exciting.

His was in no way a shrewd mind. His respect for Selma was almost reverence. But he had this advantage: he had married a woman, had lived with her for two years. She had borne him a child. Selma was a girl in experience. She was a woman capable of a great deal of passion, but she did not know that. Passion was a thing no woman possessed, much less talked about. It simply did not exist, except in men, and then was something to be ashamed of, like a violent temper, or a weak stomach.

By the first of March he could speak a slow, careful, but fairly grammatical English. He could make simple sums. By the middle of March the lessons would cease. There was too much work to do about the farm—night work as well as day. She found herself trying not to think about the time when the lessons should cease. She refused to look ahead to April.

One night, late in February, Selma was conscious that she was trying to control something. She was trying to keep her eyes away from something. She realized that she was trying not to look at his hands. She wanted, crazily, to touch them. She wanted to feel them about her throat. She wanted to put her lips on his hands—brush the backs of them slowly, moistly, with her mouth, lingeringly. She was terribly frightened. She thought to herself: "I'm going crazy. I am losing my mind. There is something the matter with me. I wonder how I look. I must look queer."

She said something to make him look up at her. His glance was mild, untroubled. So this hideous thing did not show in her face. She kept her eyes resolutely on the book. At last, just right, she closed her book suddenly. "The third, I think it's the spring coming on." She smiled a little, wavered smile. He rose and stretched himself. His great arms high above his head. Selma shivered.

"Two more weeks," he said. "Is the last lesson. Well, do you think I have done pretty good—well?"

"Very well," Selma replied evenly. She felt very tired.

The first week in March he was ill, and did not come. A rheumatic affliction to which he was subject. The father, old Johannes DeJong, had had it before him. Working in the wet fields did it, they said. It was the curse of the truck farmer. Selma's evenings were free to devote to Roelf, who glowed again. She sewed, and read; helped Mrs. Pool with the housework in a rust of sympathy and found strange relief therein made
